Q1 Faculty Information:

Last name:	Amy
First name:	Baranoski
Faculty Position:	Assistant Professor
Department:	Division of Infectious Diseases and HIV Medicine
Institution:	Drexel
Phone:	215-991-8587
Email Address:	asb23@drexel.edu

Q2 Type of Research? **Quality Improvement
Activities/Research**

Q3 Please describe your research interests:

I am interested in several aspects of clinical research on HIV infection including the relationship between HIV and aging, and improving outcomes in HIV care and adherence to treatment.

I am also interested in educational research and would be happy to discuss potential project ideas with someone interested in medical education/academic medicine.

Medical Student Research Opportunities

Q4 Please provide a brief description of research opportunity/project(s):

1) Title of project(s):

Factors associated with engagement in care for newly diagnosed individuals

Brief Description:

This retrospective study will assess the demographic and medical factors in newly diagnosed HIV-positive individual to better understand why some individuals with HIV do not remain in care. This study will be a retrospective chart review. There is some possibility for focus group or other qualitative research on this topic as well.

Duration:

Ongoing. This could potentially be a summer project.

Time commitment:

Flexible

Specific Requirements:

None. Experience with statistical analysis is a plus.

Funded or unfunded (yes or no):

No

2) Title of project(s):

Outcomes in Medical Education

Brief Description:

This would be a review of the medical education literature focused on assessment of clinical skills in undergraduate medical education with a possible review article.

Duration:

Ongoing

Time commitment:

Flexible

Specific Requirements:

None. Strong writing skills are a plus.

Funded or unfunded (yes or no);

No

Q5 Please indicate the specific level of experience required, if applicable:

Open to all medical students
