**Q1 Faculty Information:**

Last name:	<b>Harhay</b>
First name:	<b>Meera</b>
Faculty Position:	<b>Associate Professor of Medicine</b>
Department:	<b>Medicine, Division of Nephrology</b>
Institution:	<b>Drexel University College of Medicine</b>
Phone:	<b>2157628820</b>
Email Address:	<b>mnh52@drexel.edu</b>

---

**Q2 Type of Research?** **Clinical Research**

---

**Q3 Please describe your research interests:**

My research encompasses kidney disease, health policy, disparities in access to care, and neurocognitive topics.

---

**Q4 Please provide a brief description of research opportunity/project(s):**

1) Title of project(s):	<b>Cerebral Oxygenation and Neurotoxicity of Dialysis</b>
Brief Description:	<b>This is a prospective, longitudinal study that is currently enrolling patients in Philadelphia-area dialysis units for neurocognitive testing and follow-up.</b>
Duration:	<b>12 months</b>
Time commitment:	<b>1-2 days/week</b>
Specific Requirements:	<b>Students who are interested in participating must complete Drexel University's required human subjects research training and be approved to participate by our IRB. Students would receive training in the technology being studied, and would have direct patient contact opportunities. The research is being carried out at two Philadelphia-area dialysis clinics.</b>
Funded or unfunded (yes or no):	<b>Unfunded</b>
