Q1 Faculty Information:

Last name:	Krebs
First name:	Fred
Faculty Position:	Associate Professor
Department:	Microbiology and Immunology
Institution:	Drexel University College of Medicine
Phone:	(215) 762-7398
Email Address:	fred.krebs@drexelmed.edu

Q2 Type of Research? **Translational Research**

Q3 Please describe your research interests:

The primary project in my lab focuses on the HIV-1 accessory protein Vpr and its contribution to HIV-1-associated immunopathogenesis and neuropathogenesis. The project spans molecular biology, cell biology, virology, bioinformatics, and patient-based studies. Investigations in a second project examine the effects of non-thermal plasma on living tissues and organisms. Technical approaches in this developing project in plasma medicine include molecular biology and cell biology.

Q4 Please provide a brief description of research opportunity/project(s): **Respondent skipped this question**

Medical Student Research Opportunities

Q5 Please indicate the specific level of experience required, if applicable:

Open to all medical students ,

First year medical student ,

Second year medical student ,

Third year medical student ,

Fourth year medical student
