Q1 Faculty Information:

Last name:	lieb
First name:	john
Faculty Position:	associate professor of medicine
Department:	gastroenterology/medicine
Institution:	drexel med
Phone:	215 762 5429
Email Address:	jgl46@drexel.edu

Q2 Type of Research? Clinical Research

Q3 Please describe your research interests:

quality in endoscopy/colonoscopy

Medical Student Research Opportunities

Q4 Please provide a brief description of research opportunity/project(s):

1) Title of project(s):

Does the adequacy of cecal pictures predict the overall quality of the colonoscopy

Brief Description:

We are developing a scoring system to rate cecal image quality. If the cecum is not pictured/imaged properly this brings into question whether the colonoscopy was truly complete. There is some variation in the quality of cecal images. many colon cancers that develop shortly after a screening colonoscopy are from the cecum and ascending colon. You will be assisting 1-2 GI fellows in gathering and rating the imagings and recording attending ratings of the images. You maybe involved in IRB submission, database development and entry and perhaps statistical analysis

Duration:

prn

Time commitment:

prn

Specific Requirements:

good vision

Funded or unfunded (yes or no):

no

Q5 Please indicate the specific level of experience required, if applicable:

Open to all medical students
